## **Carrier Releases Updated Chiller Mobile App**

CHARLOTTE, N.C., July 24, 2019 — [Carrier](#) announces it has added a host of new capabilities to the Carrier® Chillers mobile app allowing consulting and facilities engineers a simpler and quicker means of selection. With cloud technology, the app is immediately and automatically updated. In just three steps, users can obtain key technical data and product features for Carrier air-cooled and water-cooled chillers. Carrier, a world leader in high-technology heating, air-conditioning and refrigeration solutions, is a part of Carrier, a leading global provider of innovative HVAC, refrigeration, fire, security and building automation technologies.

“Capitalizing on recent advancements in technology, we have improved the functionality of the Carrier Chillers mobile app making it simpler for our customers to select chiller information they need with real-time accuracy,” said Chris Opie, vice president, Product Marketing & Platform Strategy. “The updated technology can also reduce search and results delivery time, which makes using it an even better experience.”

The Carrier Chiller app allows heating, ventilating and air conditioning (HVAC) system and design engineers to input the capacity along with a chiller and compression type then receive key technical data and product features for the units that meet those specific requirements. By entering their zip code from any screen, users can also connect with a local

Carrier expert to obtain further information and sales support. This updated version also provides:

- Ability to find and contact your local sales office from any screen
  
- Additional Chiller details including:
  - streaming product videos
  - links to product pages on the company's web site
  - a link to information regarding the US government-sponsored GSA Proving Ground Study 031 that compared efficiencies of various chiller types
  - links to Replacement Components and Carrier Rentals information and locations
  
- Information on the expanded Carrier chiller offering:
  - 30RAP, 30RB, 30XA and 30XV air-cooled products
  - 30HX, 30MP, 30XW packaged water-cooled products
  - 19DV, 19XR, 23XRV applied water-cooled products
  - 09AZ, 09DP, 38APD, 38APS air-cooled condenser products

This app, as all Carrier apps, is free and available for download to internet-connected Apple® and Android™\*\* devices at [carrier.com/commercial](http://carrier.com/commercial). For more information, visit [carrier.com/commercial](http://carrier.com/commercial).
